

ARCH

Leg Positioning System™

Specifications

Traction:

Continuous control from -40 to 100 mm.

Rotation:

360 degrees. Resolution = 10 degrees.

Extension/Flexion:

41 degrees max. / 20 degrees max.

Adduction (Rotation Range):

360 degrees. Resolution = 10 degrees.

Width:

2.8 ft (85 cm)

Length:

5.2 ft (158 cm)

Height:

Traction Boot to Floor: 3.3 - 4 ft (1015 - 1215 mm)

Weight:

200 lb (91 kg)

Patient Weight Capacity:

500 lb (227 kg)*

*If the safe working load of the OR table used is lower than this, the OR table patient weight limit takes priority.

US Patent No. 7,762,975 / Canadian Patent No. 2,587,824
